Ex Parte Quayle

1. Since this application is in condition for allowance except for format matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 43 O.G. 213.

Claim Objections

2. Claim 1 is objected to because of the following informalities: it is not clear whether term "network" in line 6 is part of the claim. Appropriate correction is required.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the method comprising steps performed at a first network element of: receiving at the first network element information relating to a change in the network at a second network element, determining an affected set of network elements, wherein the affected set comprises network elements which are reachable from the second network element, determining a furthest network element in the affected set as located at a furthest distance from the first network element, identifying a sequence in which updating of routing information of each network element in the affected set should occur, and updating the routing information at the first element in sequence must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

REASONS FOR ALLOWANCE

4. Claims 1-16, 18-33, 35-48 allowed over prior arts made of record.

The following is an examiner's statement of reasons for allowance: the prior arts made of record does not teach in combination steps of determining an affected set of network elements, wherein the affected set comprises network elements which are reachable from the second network element, determining a furthest network element in the affected set as located at a furthest distance from

the first network element, identifying a sequence in which updating of routing information at each network element in the affected set should occur..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
